a) Maturity pattern of certain items of assets and liabilities

⁹ Savings Bank and Current Deposits may be classified into volatile and core portions. Savings Bank (10 per cent) and Current (15 per cent) Deposits are generally withdrawable on demand. This portion may be treated as volatile. While volatile portion can be placed in the Day 1, 2-7 days and 8-14 days time buckets, depending upon the experience and estimates of banks and the core portion may be placed in over 1- 3 years bucket. This classification of Savings Bank and Current Deposits is only a benchmark. Banks which are better equipped to estimate the behavioral pattern, roll-in and roll-out, embedded options, etc. on the basis of past data / empirical studies could classify them in the appropriate buckets, i.e. behavioral maturity instead of contractual maturity, subject to the approval of the Board / ALCO
